Puerto Notes.

[Correspondence]

We are glad to note the progress of the country regardless of the dry weather.

J. M. Hodges has a patch of oats that looks fine. Gatewood also has a patch that would grace any community.

A Mr. Norton of Norton, five miles north of Puerto, was here this week getting information concerning school precincts. He says they are trying to get a school started at Norton.

Jack Lewis, of the Frio, an old time cattle man, was in Puerto, Saturday. Mr. Lewis has made application for the post office at his place, which is located on the Tucumcari-Texico auto line.

The board of trustees have employed Prof. Frazer, of Okla., to teach our school, which begins April 1st.

Mrs. Henry Maywald, who has been on the sick list for a couple of weeks is improving at present.

Ed Hill, of Barrancas was here after seed corn, Monday.

I noticed an editorial in last week's News about hog raising. This is the best hog country to be found anywhere. If the farmers would make it a business to raise hogs every year and fatten them on milo maize and sorghum, they would never be bothered with cholera. BEAR GRASS.

Scarlet Fever at Mesilla.

Mesilla Park has had a full fledged scarlet fever scare this week. The outbreak of the disease came last Saturday morning, when it was discovered that three girls in the dormitory at the Agricultural College were afflicted. One student, John Sullivan, of Farmington, died of the disease Monday night. Work has been suspended at the College all the week, and every possible effort has been made to stamp out the disease. No new cases are reported and it is hoped that it will be possible to resume work at the College in a few days.--Socorro Chieftian.
